Transamerica Company Increases Enrollment of its Consistently 4-Star Rated Medicare Part D Solutions

Since it began underwriting Medicare Part D plans, Stonebridge Life Insurance Company (a Transamerica Company) has consistently received a 4-star rating from the Centers for Medicare and Medicaid Services (CMS) while pursuing a strategic growth strategy. The composite plan, made up of individual and group solutions, recently received a 4-out-of-5 star rating from CMS for plan year 2015.

The stable Star Ratings and growth strategy are a direct reflection of Transamerica's commitment to Medicare beneficiaries. In just four years, the Group Medicare Part D solution has become the fifth largest Employer Group Waiver Plan (EGWP) by enrollment.¹

"The Transamerica companies are constantly focused on improving and delivering quality and service to our consumers through all of the solutions we offer," says Mark Zimmerly, Vice President of Business Development at Transamerica Affinity Services. "Our Part D solutions deliver more value, choice, and coverage to Medicare beneficiaries than ever before. This is a direct result of our dedication to providing customers with exceptional service, competitive solutions, and precisely managed plans."

The [Group Medicare Part D EGWP](#) solution provides Medicare beneficiaries with cost-effective coverage at over 65,000 pharmacies, and the [individual Medicare Part D Plan](#) solution provides over 50,000 pharmacy options, including major chains and many independent community pharmacies. Mail order and extended-day supplies at retail outlets are also available for member convenience. The plan's Medication Therapy Management program and 24/7/365 customer service will ensure retirees receive services to support their needs.

CMS ratings apply to both of Transamerica's Part D solutions:

- The Transamerica Group Medicare Prescription Drug Plan (Employer PDP) solution named [Medicare GenerationRxSM](#), an "800-series" Employer Group Waiver Plan (EGWP).
- The individual Prescription Drug Plan (PDP), named [Transamerica MedicareRx \(PDP\)](#).

Plans are underwritten by Stonebridge Life Insurance Company, a Transamerica company.

CMS Star Ratings

Star Ratings help Medicare beneficiaries make an informed decision when evaluating the relative quality of service and performance of a Prescription Drug Plan (PDP). Medicare evaluates plans based on a 5-star rating system. Star Ratings are calculated each year and may change from one year to the next.

Here are some key facts from [Medicare's official website](#) about Medicare Star Quality Ratings:

- CMS reports scores and compares plans based on performance.
- The ratings are used to compare all Medicare plan types.
- Overall quality is based on the plan's ratings in more than 12 different categories ranging from customer service, member complaint levels, to the accuracy of its drug pricing on Medicare's website.
- Plans are also rated on how often members are prescribed drugs in a way that is safer and clinically recommended.

Flexibility for producers and employer groups

With a variety of plan design and contribution options, the ["800-series" Employer Group Waiver Plan \(EGWP\)](#) can help employers, government agencies, and union groups closely match existing benefit structures, manage benefit costs, and easily transition retirees from another prescription drug plan.
